## Objectives

Promote earth and bamboo as excellent materials for contemporary architecture and establish global networks to facilitate exchange of knowledge and experience.

## Who can participate

We address architects, students, lecturers, craftspeople and engineers from all over the world, who are interested in sustainable architecture.

# BASEhabitat International Summer School

ON EARTHEN AND BAMBOO CONSTRUCTION

JULY 16 - 30  
2023

AUSTRIA

## Contact

basehabitat@kunstuni-linz.at  
www.basehabitat.org

## PROGRAMME

### Workshops

Learn from world-leading experts how to build with regenerative materials. Participants can choose two workshops on different techniques, each lasting 4.5 days.

ADOBE + EARTH BLOCKS	AMÀCO - FRANCO NORIEGA + ZOÉ TRIC
RAMMED EARTH	DOMINIK ABBREDERIS + MAX WEIDACHER
EARTH + FIBRES	FRANCOIS STREIFF + BECKY LITTLE
BAMBOO	VERONICA CORREA + LUCÍA CORREA + DANIEL STAMATIS

### Material Science

Basics in using earth and bamboo for construction. Exchange and discussion between the workshops.  
EARTH - amàco team | BAMBOO - bambuterra team

### Theory Classes

Theory classes will present different insights and allow discussions about challenges of sustainable architecture. Guests are ANNA HERINGER + MARTIN RAUCH among others ...

### Networking

In the evening we give the stage to the participants. You can present your projects, discuss them with the others and create new networks.
